

ELECTRIC CAPSTAN WINCH SWE 500-B

For short cable pulls up to 5 kN

This capstan winch is mainly used for short cable pulls which can no longer be executed manually.

The two capstan wheels enable various pulling forces and speeds.

This winch is suitable both for steel and fibre ropes.

Also cords can be pulled directly.

A drilling machine is used for the drive.

This handy lightweight winch can be used almost everywhere.

Technical data SWE 500-B

Length:	580 mm
Width:	280 mm
Max. reel width:	290 mm
Weight:	18 kg

Drive

Power drill:	Metabo 750W
Pulling force:	500/250 daN (kg)
Speed:	4/8 m/min

ELECTRIC CAPSTAN WINCH SWE 500-B

Standard version

- Metabo power drill 750 W
Pulling force: 500/250 daN (kg)
Speed: 4/8 m/min
- Simple but ingenious design
- Easy handling
- Robust
- Galvanized chassis

Further options

- Pedal switch
